

# Emergency Call to Action

Bshvil בשביל המחר 

"The Path to Tomorrow Starts Today"

Serving Those Who Served

We are at war. Our soldiers are fighting ceaselessly, as every moment and every second counts. Their spirits are high and they are unwavering in their determination.

We believe that these **heroes are Israel's future**, and we must **provide aid** for them upon their return from war.

For the past 15 years, 'Bshvil', a non-profit organization, has been helping IDF **soldiers to overcome combat-related trauma**. It is our mission to help them restore their spirit and return to normal life. Our program includes **professionally guided meetings, support-group activities** which take place in the outdoors and an ongoing personal support, as needed.

During this time of war, Bshvil is providing **emergency mental resilience** support for soldiers in war zone. knowing that **PTSD can be treated effectively** when it is done immediately, we **must prepare** for the day after the war.

The cost of funding one combat unit's group activity (15 soldiers) is **US\$30,000**. We are committed to assisting **100 combat** units per year.

## You can **donate** to support:

A soldier for half  
of the program

**\$1000**

A soldier for the  
whole program

**\$2000**

5 soldiers for  
the whole program

**\$10,000**

An entire combat  
unit for the whole

**\$30,000**

We'll appreciate any contribution. **Our soldiers will thank you personally.**

**This is a call to action!** Join us now in helping thousands of combat soldiers who need our immediate help.
